Reading Railroad Heritage Museum Planning Session Scheduled

An important planning session will be held on Saturday, March 26 from 8:30 AM to noon at Trinity Bible Church, Blandon. Attendance by committee chairs or a representative of your committee is important. All RCT&HS members interested in participating are welcome. The meeting will help to prioritize the many needs and directions of the Reading Railroad Heritage Museum in order to maximize our efforts and resources.

2011 Ballots Due

Ballots for the RCT&HS Board of Directors must be received by March 31st. Please be sure to send in your ballot in time as directed on the ballot sheet.

New Sign at the Reading Railroad Heritage Museum

The Schuylkill river Heritage Association has installed a trail-head sign officially marking the Reading Railroad Heritage Museum as a interest point along the Schuylkill River Trail system. The photo was taken by Dale Woodland.

A motion to refer the Treasurer's Report to the Finance Committee for audit and vote was made by Dale Woodland, seconded by Jay Zimmerman. The motion Passed.

BUDGET & FINANCE / FUND RAISING COMMITTEE

John Brown 717-426-2238 JWBROWN929@AOL.COM

The audit of the 4th Quarter 2010 financial records was completed by Tom Brown. All Society records are in order, accurate and complete. The records for the entire year 2010 have been submitted to our accounting firm for review and tax preparation. During 2010 approximately 220 Society members donated almost \$39,000 to the Society. An additional \$9,000 was donated via coal bucket donations, matching funds from employers, donations at modular RR displays, donations from museum visitors and a few other sources. Thank you to all our financial supporters.

MUSEUM OPERATIONS

Dale Woodland 215-723-5848 dwwrdg@verizon.net

The Knox Box has been installed (thank you Duane). Docents have been mailed copies of the Display Tour Evaluation Form and have been asked to do a self evaluation before being evaluated. The Ops Committee has established a protocol that future exhibit costs need to be approved by the committee before the exhibit is created. The committee has

prioritized the needs of our museum for submission to the Board of Directors: Creation of passenger train exhibit (\$300), LEMTU rehab, creation of typical prototype freight train in display yard, computer and Past Perfect software program. Storage cars are coming off the R&N so it may be possible to have a Bee Line Festival in late summer. A track laying demonstration was suggested as an activity. There will be a Girl Scout Tour Wednesday March 23rd at 6:30PM. John Brown will represent the Ops Committee at the RCT&HS planning session March 26th. We voted to take out advertisements in the Hamburg HS Camelot Program booklet \$40 and Little League booklet \$45. We have joined the Blue Star Museum Program which entitles active military personnel free admission to participating museums between Memorial Day and Labor Day 2011. We will be listed in their literature. We will offer space in the gift shop for the sale of duplicate artifacts and RCT&HS member's donations of books, magazines, models etc. Also, docents may have a table in the gift shop the day of our annual train meet so they can volunteer a sell at the same time. Lori Mengel has volunteered to help with local advertising for the museum (newspapers and merchants). We need to target our audience more in regards to our overall advertising. Next Meeting date Wednesday March 16, 2011 at 7PM

CURATORS REPORT

Paul Troutman 610-926-4919 ptrout@epix.net

We have secured a donation of 13 show cases and three display stands which are stored currently at the business across the street from the museum. We are also getting a quantity of document stands, five more cases, some portable room dividers, and a book case. This assortment of cases will enable us to select the best style case for each exhibit. Since new cases cost about \$2000 each, this represents a substantial donation to our museum. I will send thank you letters to all donors. Special thanks to John Stoudt for making trips to evaluate cases.

The next exhibit, *Railroad Safety on and around the Rails*, will run between November 2011 and August 2012. In the future all loans to other museums (currently the RRMPA) will be managed and signed by the curator in concert with the Museum Operations Committee. This is consistent with standard museum practice.

Steve Gilbert is developing a new exhibit for the large 1-inch scale passenger car models along the North wall. Steve has some great ideas and is building the cases for the cars and engine. The rest of the work will be done by our outstanding volunteers. This is a major project which we can prebuild and install with very little disruption of the museum. In this same North area the Modular Group plans to rebuild the layout with many improvements. Keep watching this area.

Donations acknowledged are: David Bolton, Conductor's uniform; John Nettelton, Stoutsburg Station sign; Janet Roth, Rdg. Co. letter; William Bubeck, many tools, stove poker, brass items, brass sight glass lamp; John Didyoung, conductor's seat; Patrick Stran, can and lamp; Larry Mundell, crossbuck, lanterns, controller; Donald Davis, Berks Co. RR voucher; Fred Wertz, Bridge Stanchions; Richard Frey,

MANY neat items too numerous to mention; Mr. Calveressi, the 1" scale baggage car.

LONG RANGE PLANNING TASK FORCE

Carol Adams 610-777-3764 adamsjimca@comcast.net

An important planning session will be held on Saturday, March 26 from 8:30 AM to noon at Trinity Bible Church, Blandon. Attendance by committee chairs or a representative of your committee is important. All RCT&HS members interested in participating are welcome. The meeting will help to prioritize the many needs and directions of the Reading Railroad Heritage Museum in order to maximize our efforts and resources.

Planning sessions for Schuylkill River Heritage Towns and Tours have begun. The plan will result in new tourism efforts for the borough of Hamburg. The RRHM will be designated as a partner in the project.

Discussions continue with the Eastern Berks Gateway Railroad, operators of the "Colebrookdale spur". Future periodic cooperative passenger excursions on the line could result.

Met Ed has installed its new power poles near Museum property and begun installation of the wires.

TRACK & GROUNDS

Duane Engle 610-929-5661 rcths.dengle@juno.com

This past month, just like the previous, we worked on clearing snow numerous times again. I want to thank John Stoudt, John Corbit, Bill Bubeck and Rebecca Engle for helping me with snow removal this month. If anyone can help with snow removal over the winter please let me know. Hope to work on some more grounds work in the near future.

Paul Troutman reported that he has had contact with UGI and they will be getting back to us on possible rail donation.

MODULAR

Jonathan Barket 570-366-1533 jono1920@aol.com

We had a fantastic time at Timonium Md. We ended up being 96' long and had the layout up and running in 3 hours. We were known as the layout with the operating signal system. Everyone complemented us on what a fabulous job we have done. I hope everyone who has contributed to the modules and who helps out can take that compliment and feel really good about themselves and about our display. Again, I would like to thank everyone who helped out at this show.

We are currently working on Dana. We have stripped all the scenery off of these modules. They are basically blank and are ready for new scenery. We also will be fixing some track work in this area to get ready for new rolling stock. The Dana buildings are also getting rehabbed. We plan on having this entire section finished and ready for our Pottsville Show. After this we plan on having a few work sessions to begin construction on several new scenes.

Belt is also getting work done to it. Duane has taken those sections and is replacing the defective switches and

getting it ready for computer control. Scenery upgrades will also be taking place.

We have also received a letter about a donation that is going to be given to us. His name is Richard and he is donating several buildings and rolling stock including a detailed model of the station at Schuylkill Haven. With this donation, we have planned a scene for the modular layout to include the station and freight house. This should be a very nice scene once completed.

As always, work sessions are usually held each weekend in Hamburg. If anyone is not on the email list and they would like to be please let me know.

PASSENGER OPERATIONS

Mike Stehman will work with our RDC's for the proposed Eastern Berks County Gateway Railroad tourist train operations.

ARCHIVES / PUBLICATIONS / CALENDAR

Rick Bates 610-647-9359 rbates@voicenet.com

◆ Archives

Thanks to the following for donations: ten photo albums of Reading RR-related locations and activities from Mike Piersa; a 1954 issue of the Railway Official Guide from Robert Bernstel; and a set of Reading Division dispatcher sheets for July 1963 from Paul Kutta. Also, thanks very much to the following for recent help in sorting our archives: Andrew Dietz, Randy Mengel, Mike Smith, Bill Stafford and Rick Bates. With spring approaching, archives work sessions will be held only on certain Saturdays when the weather is unsuitable for outdoor projects. Contact me ahead of time before journeying to Hamburg to help on archives sorting.

◆ Publications

The next Bee Line will be a double issue for year 2009, hoping it goes to the printer in March. Working on additional articles for the next Bee Lines.

◆ Calendar

We have decided the Year 2012 calendar theme will be "Steam and Diesel on the Reading Railroad," and we invite members to submit photos for consideration. What we are looking for are photos that have some aspect of the usage of both steam and diesel in the same picture (not necessarily in locomotives) or photos showing the transition from steam to diesel locomotive power. For example, a picture of a diesel locomotive hauling steam-heated coaches would qualify for the calendar. Put your thinking caps on and let's see what

other ways we can find where both steam and diesel power were used. Photos should be sharp, properly exposed 8x10 color or black & white prints, or original color slides. We could also work from extra-sharp 5x7 black and white prints (look at them under a magnifier to see if they are REALLY sharp), but please do NOT send 5x7 or smaller color prints, duplicate color slides, or digital pictures printed at home on a laser or inkjet printer. These formats do not reproduce well when published at full-page size as in our calendar. High quality digital scans may be acceptable, but please contact us for more details if you want to submit in this format. Please have your photo submissions to us by March 31. If you haven't gotten one already, please contact the Sales Committee to purchase a copy of our 2011 calendar featuring the photography of George W. Gerhart II, who grew up in Robesonia and took many excellent pictures in the very early 1950s of the Reading's steam and diesel locomotives, trains, and structures.
